Message from the Chairperson

Overview

The world of sports is expanding, and a number of factors are shaking up the game. Increased globalization, diversifying community interests and changes in media consumption are creating passionate fans who are more connected than ever before. As investors flock to the sports industry, athletes gain more agency, and the competition intensifies. Global sports are becoming more professionalised. The stakes are thus high hence our sports organisations should adapt to meet the financial expectations. The need to build stronger secretariats, leverage on data and analytics and development of organisational competencies becomes paramount.

These developments at a global scale call for Zimbabwe to adopt and adapt the same in localised conditions in order to drive socio-economic development. The transformation of Zimbabwean sport therefore requires that the country leverage developments at the international stage and best practices as well as emerging trends for impactful returns. Of critical importance is the continued drive to market Zimbabwe as a desired sport tourism destination in order to build capacities and improve sport infrastructure.

The year 2025 witnessed a steady growth in the number of participants in sport and recreation. A total of 14,250,712 participants were recorded against 12,915,933 recorded in 2024. This growth is sustained by the active consciousness of the Zimbabwean population to participate in various wellness programs. The country continued with its quest for hosting sport and recreation activities with major sporting activities positively contributing to the Gross Domestic Product through sport tourism receipts.

The UCI WCC CAC BMX Development Camp-Sprint Session

Key Achievements

The period under review witnessed the end of the National Development Strategy 1(NDS1) and the transition to the National Development Strategy 2 (NDS2). The Sports and Recreation Commission (SRC/Commission) actively reviewed its strategic plan drawing from key lessons learnt in the period 2021-5. In the year 2025, all the key strategic focus areas performed well including mass participation, podium performance, sport for development, clearances and hosting as is depicted in the sports and recreation sector performance report which is part of this combined Annual Report.

The country registered significant sport achievements across various sport codes. In athletics, three athletes finished in the top 10 at the World Athletics Championships held in Japan. The cricket senior men's team qualified for the ICC Men's T20 World Cup after winning the Africa Regional Qualifiers unbeaten. Zimbabwe senior rugby team (the Sables) made history by successfully defending their Africa Cup title in July 2025, securing a ticket to the 2027 Rugby World Cup in Australia. This remarkable achievement marked the end of a 34-year wait to return to the global stage, where Zimbabwe will face England, Wales and Tonga in a challenging but exciting pool. Zimbabwe volleyball also performed well with the UZ Wolves retaining the Confederation of African Volleyball Zone VI men's title in December 2025. In netball, the National Senior Women's Team (the Gems) performance was satisfactory, ending the year with a global rank of 12. The team finished third at the African Championships'

The Commission managed to resuscitate the Annual National Sport Awards after a 5-year break in order to reward deserving athletes, sport persons, technical officials and administrators. In addition, the Commission set in motion the resumption of the Zimbabwe Youth and Paralympic Games which have been streamlined to serve as qualifiers for the 2026 African Union Region 5 Games to be held in Maputo, Mozambique.

International Competitions and Achievements

The country continues to register remarkable achievements at regional, continental and international sporting events. In the year 2025, a total of 539 medals were achieved against 258 achieved in the year 2024. Sport codes such as athletics and continue to perform well hence require more support. At the African Union Sports Council (AUSC) Region 5 Games and the African Youth Games, the country performed relatively well. The Commission coordinates and support the development of athletes towards podium performance through various initiatives such as facilitating for funding, capacity building programmes and technical advice.

Sports Infrastructure

It is the mandate of the Commission to ensure the country has standardised and homologated sporting infrastructure. The Commission works closely with investors, National Associations, continental and international federations to ensure the development of the requisite infrastructure. Renovations at the country's flagship infrastructure, the National Sports Stadium continued in the year under review and the facility is earmarked to be commissioned in the year 2026.

Zimbabwe vs Northern Ireland - Celtic Cup 2025, Glasgow, Scotland

Active rehabilitation works were witnessed in the year 2025 at various facilities across the country. A total of twelve (12) sporting facilities were fully refurbished including Karigamombe Multi-purpose Court in Mashonaland West, Mkoba Teachers College Multi-purpose Facility in Midlands, Richwood Sports Club in Harare, Astro Falcon Hockey Turf at Falcon College in Matabeleland South, Rufaro Stadium in Harare, Oliver Juru Multi-Purpose Sports facility in Mashonaland East, Garwe Stadium in Chivhu, Kwekwe Sports Arena and Chahwanda Stadium in the Midlands Province.

Sport Governance

Good governance is key to sport excellence. It is the responsibility of the Commission to ensure proper organisation and management of National Associations. This entails ensuring transparency and accountability by administrators who are reposed with the duty to organise and direct sport and recreation activities. In some instances, the Commission has had to intervene with regulatory powers. In the year under review, following a series on non-compliance by the Zimbabwe Rugby Union, the Commission intervened and suspended the National Executive Committee and National Executive Board and an Interim Management Committee (IMC) was appointed. The IMC managed to bring stability working closely with the continental and international federations to support the Sables preparation for the 2027 World Cup.

Through various initiatives, including targeted engagements, compliance levels mildly increased from 69% achieved in 2024 to 76% in the period under review. This level of compliance is far from ideal as it includes some associations on partial compliance. The Commission will continue with the engagements and drastic measures shall be taken to non-responsive associations in the ensuing periods.

Strategic Partnerships

The Commission signed key strategic partnerships aimed at strengthening collaboration in sport and recreation development including with Zimbabwe Tourism Authority and Workers Bee Africa. The implementation of the sustainability strategy drafted in the previous year gradually started in the period under review with a number of partnerships executed with a view to gravitate towards self-sustenance. The Commission also supported some National Associations with modest grants to support hosting of championships in addition to brokering sponsorships.

Challenges

Major challenges in the sector remain constrained funding and inadequate infrastructure. The Commission is indebted to the Government and some private players who have come forward with world class sport infrastructure across the country. The continued support by the Government of Zimbabwe is well appreciated which enabled the country's participation at the AUSC Region 5 games in Namibia.

Outlook

As the Commission reflects on the 2025 reporting year, it is encouraged by the resilience, determination and talent demonstrated by Zimbabwean athletes, coaches, technical officials and administrators across a wide spectrum of sporting disciplines. Their achievements continue to inspire national pride and reaffirm the transformative power of sport as a vehicle

for national development, social cohesion and international recognition. Throughout the year, Zimbabwe maintained an active presence in regional, continental and international competitions. Our athletes represented the nation with distinction in athletics, cricket, football, rugby, boxing, netball, swimming, paralympic sport and other disciplines. Their performances were underpinned by unwavering commitment, professionalism and patriotism, reflecting the growing maturity of Zimbabwe's sporting ecosystem. Zimbabwe also continued to participate in international aquatics competitions and other global sporting events, broadening opportunities for athletes to compete at the highest level.

The Commission particularly recognizes the continued emergence of young Zimbabwean athletes who have demonstrated that the future of our sport is promising. The outstanding performances of Zimbabwean track and field athletes on the international stage, together with competitive displays by our national cricket and rugby teams and encouraging performances across numerous sporting codes, have enhanced Zimbabwe's reputation within the global sporting community. The return of the Annual National Sports Awards also provided an important platform to recognise excellence and celebrate the achievements of athletes, coaches, administrators and volunteers whose contributions continue to elevate Zimbabwean sport. The future of Zimbabwean sport is indeed bright. The Commission will continue to provide an enabling environment for sporting excellence.

Appreciation

I wish you sincerely appreciate the support of the Government of Zimbabwe, the Minister of Sport, Recreation, Arts and Culture, the Permanent Secretary and all Ministry officials. Special mention to the Ministries of Finance, Economic Development and Investment Promotion, Home Affairs and Cultural Heritage and Foreign Affairs and International Trade, whose support towards sporting activities remains unwavering. Further thanks to all our stakeholders, partners, National Associations and delivery agencies, athletes, technical officials and administrators, who work tirelessly to put the name of the country on the global sporting landscape. Allow me also to warmly appreciate my board members, management, and staff whose dedication to duty is unmatched.

Minister of Sports, Recreation Arts and Culture Lt Gen (Rtd) Ambassador Anselem Sanyatwe opens the Multi-Purpose Sports Court facility located at Rafamoyo High School in the Gutu District of Masvingo Province, Zimbabwe.

Message from the Director General

Introduction

The 2025 financial year period remains a significant period for Zimbabwe and the Sports and Recreation Commission (SRC/Commission) in particular, in that the country's National Development Strategy 1 (NDS1) came to an end and the country transitioned into NDS2. This report provides an analysis of the operational and financial performance of the Commission for the year-ended 31 December 2025. Compared to the previous year, the financial position and performance declined owing to increased operational costs and low-income earning capacity. The Commission however remained resolute in implementing its programmes underpinned by effective collaborations and engagements with various stakeholders in order to achieve set targets. The Commission's operations were mainly underpinned by the following strategic focus areas:

- Integrated sports system
- Capacity building of National Associations and Delivery Agencies
- Sport code prioritisation based on participation
- Community based sport development programmes
- Bidding and hosting international competitions
- Standardization and access to existing facilities and equipment

Performance

Operations

The Commission forged ahead with implementation of programmes in line with its strategic plan and NDS1 with support from the parent ministry, the Ministry of Sport, Recreation, Arts and Culture. The period under review saw the revival of the Annual National Sports Awards and the country's hosting of the Regional Annual Sports Awards. The Commission also provided technical, administrative and financial management support for the 2025 Independence football programmes.

The Commission, as a grant aided institution, mainly relies on Government support to fund critical operations with other statutory revenue streams complementing the grants. The operational environment during this period was largely constrained due to non-disbursement of the operations grant by Treasury caused by competing national commitments. As result, The Commission prioritised key programmes funded by statutory levies

Zimbabwe Archery Team, 14th African Archery Championships, Abidjan, Ivory Coast

which remained largely conservative due to low compliance levels by licences. Key cost drivers in the year 2025 included sport and recreation programming, operational fuel, internet and staffing.

The Commission fully adopted the International Public Sector Accounting Standards (IPSAS) in the year under review per Government's policy. Review of the internal control environment was prioritised through the internal audit unit and committee oversight. In line with good corporate governance practices, the Commission continued to implement best practices through the stewardship of the Board, the Corporate Governance Unit and the parent ministry.

One of the key mandates of the Commission is to ensure the proper management of organisations that promote sport and recreation activities. In 2025, the Commission deliberately intensified the capacity building of National Associations through regulatory circulars and targeted engagements. An engagement forum with the Commission's Board and all National Associations was also held in the period under review. The Commission also played a critical role in facilitating funding of key international activities through the Government to ensure effective representation of the country at the international fora.

Financial Performance

Though the revenue earning capacity of the Commission improved from prior year, the corresponding increase in expenditure underpinned by the disparity between pricing of goods and services in foreign currency and the earnings in local currency resulted in a deficit for the period under review. The Commission closed the year with an inflation-adjusted deficit of ZWG5.79 million (historical cost: ZWG5.046 million), compared to a surplus of ZWG11.59 million

The Zimbabwe Senior Women's National Netball Team, the Gems at the Africa Netball Cup, Malawi

(historical cost: ZWG10.31 million) recorded in 2024. Consequently, accumulated funds deteriorated from a positive balance of ZWG2.136 million in 2024 to a negative balance of ZWG5.506 million at year-end.

The weak financial performance was due to expenditure growing faster than revenue. Total revenue fell by approximately 13%, from ZWG52.306 million in 2024 to ZWG45.723 million in 2025. This decline caused by lower grants and donations, reduced other operating income, and significantly lower exchange gains compared with the prior year

The Commission's revenue base remained dependent on Government transfers, statutory levies, and grants. Revenue for the year comprised Government transfers of ZWG14.58 million, taxes and levies of ZWG9.41 million, grants and donations of ZWG15.93 million, other operating income of ZWG3.44 million, net interest income of ZWG1.94 million, and exchange gains of ZWG0.43 million. Grants and donations remained the largest source of funding, contributing approximately 35% of total revenue.

Audited Financial Performance (ZWG Inflation Adjusted)

	2025 ZWG	2024 ZWL	Movement ZWG	%
Income	45,723,555	52,306,506	-6,578,951	-12,6%
Expenditure	(51,332,056)	(42,294,177)	9,037,879	21,3%
(Deficit)/Surplus	**(5,608,501)**	**10,012,329**	**-15,620,830**	**-156.02%**

Financial Position

As at 31 December 2025, the total asset base of the SRC decreased by 42.12% to ZWG 9,446.073 compared to ZWL16,318,699, in 2024 (as shown in table 2, below). The was driven largely by an 84.65% fall in current assets.

The current ratio of the SRC deteriorated to 0.136, in 2025 compared 0.98 in 2024, reflecting a worsening liquidity situation. The Commission's net cash balances reduced to ZWL908,693 from ZWL 937,865 (inflation adjusted) in the period under review.

Audited Statement of Financial Position (ZWG Inflation Adjusted)

Balance Sheet Structure	2025 ZWG	2024 ZWL	Movement ZWG	%
Total Assets	9,446,073	16,318,699	6,872,626	-42.12%
Total Liabilities	7,777,946	7,008,297	769,649	10.98%
Net Assets/equity	**1,668,127**	**9,310,402**	**7,642,275**	**-82.08%**

As shown in the above net assets due to a combination of a decline in total assets, which coexisted with an increasing burden of liabilities.

Zimbabwe vs Egypt, Africa Cup of Nations, Morocco

Liquidity

The net available cash balances at the end of reporting period reduced by 3% to ZWG908,693 from ZWL 937,865 for the year ended 2024.

2025 Budget allocation

The Commission presented a budget bid of USD9,974,120 (equivalent). The approved allocation was USD1,504,501 equivalent to 15% of the SRC bid, as outlined in table 5 below.

2025 Budget Bid vs Allocation

Details	Budget Bid equivalent	Budget Allocation	% Allocated
Total Operations Grant	6,806,550	1,053,386	15%
Salaries Grant	1,194,970	448,115	38%
CAPEX	1,972,600		
Cumulative total	**9,974,120**	**1,504,501**	**15%**

The Commission only managed to receive project specific grants for independence, Annual Sports Awards and AUSC Region 5 games for the period under review.

Sport Development And Recreation

A total of 14,250,712 participants were recorded in sport and recreation activities across the country against a target of 8,800,000 giving a positive variance of 5,450,712. Mashonaland Central Province recorded the highest number of people participating in sport and recreation, achieving a significant 2,040,357 and the achievement is attributed to organized activities coordinated mainly through the various District and Ward Sport and Recreation structures.

Sport and Recreation Performance Dashboard

CATEGORY	2025	2024	VARIANCE	% GROWTH
Participation	14,250,712	12,915,933	5,450,712	42%
Major Events Hosted	553	465	88	18,9%

Sport Infrastructure Refurbishment	33	20	13	65%

Winter Burn Outs & Colour splash, Harare, Zimbabwe

Participation in sport and recreation.

The number of participants in sport and recreation mildly increased in the year under review by a positive variance of 42% compared to the previous year. The country is witnessing an increased appetite for recreational activities to promote health and wellness.

Clearances-Internal and External Tours

In line with the Commission's mandate, sports and recreation activities are authorised and diplomatic activations are done for all travelling teams. In the year under review, the Commission cleared 553 activities representing a 19% increase from the 465 clearances issued in 2024. The table below shows a comparative analysis from 2022 to 2025.

Sport and Recreation Activities Cleared

Category	2022	2023	2024	2025	Movement 2024-2025	% Growth
Tours Cleared	247	299	465	553	88	18.9%

The Titan Law ladies Pink Polo International - Zimbabwe vs Zambia, Thornpark Polo Grounds in Harare, Zimbabwe

Major Events Hosted

Zimbabwe has positioned itself as a safe destination for sports events and associated sports tourism. In this regard, the Commission supports National Association's bids for hosting through both material, logistical and technical support to enable successful hosting of events. A total of 182 major sporting events were held in the country from 159 hosted in 2024. Events hosted include Group 3 Davis Cup Tennis Qualifier Tournament, Barthes u20 Rugby Trophy, Confederation of African Athletics Southern Region Senior Championships, International Handball Federation Trophy Zone 6 Competitions, CAC Cycling BMX AFCON 2024, 2nd African Traditional Sports and Games, ICC Men's T20 World Cup Africa Qualifier, Total Energies U17 Africa Cup of Nations Boys Tournament, Zambezi 7s Rugby Challenge, Harare Sports Club, 8-9/11/2025, Africa Footgolf Open Championship, CAF U17 Girls Integrated Football Tournament and the 16th African Youth Chess Championship (AYCC).

Major events hosted in 2025

	Q1	Q2	Q3	Q4	Total
Major Events Hosted	48	48	48	38	1 82

Zimbabwe won ICC Men's T20 World Cup Africa Qualifier, Harare Sports Club, Harare, Zimbabwe

Podium Performance

Podium performance represents the ultimate success in competitive sport. Zimbabwe achieved a total of 539 medals at regional, continental and international events in the year 2025. Sport codes such as athletics and continue to perform well. At the African Union Sports Council Region 5 Games and the African Youth Games, the country performed relatively well. 184 gold, 170 silver, and 185 bronze medals were achieved in the year under review compared to 112 gold, 81 silver and 65 bronze achieved in the year 2024.

2025 Medal Tally

Period	Gold	Silver	Bronze	Totals
Q1	22	18	11	51
Q2	38	27	35	100
Q3	71	82	98	251
Q4	53	43	41	137
Totals	**184**	**170**	**185**	**539**

Zimbabwe vs Namibia - Rugby Africa Cup Tournament, Uganda

Sports Infrastructure

The provision of standardised sport infrastructure is essential for achieving podium performance. It is the responsibility of the Commission, in consultation with various international federations to ensure that all sporting facilities are fully homologated. The Commission thus continued to play an active role in the refurbishment of the National Sports Stadium. In addition, the Commission supported the Government in the construction of the Nembudziya Stadium which hosted the 2025 Independence celebrations in Gokwe.

A total of twelve (12) sports facilities underwent full refurbishment in the period under review including Karigamombe Multi-purpose Court in Mashonaland West, Mkoba Teachers College Multi-purpose Facility, Richwood Sports Club in Harare, Astro Falcon Hockey Turf at Falcon College in Matabeleland South, Rufaro Stadium in Harare Province, Oliver Juru Multi-Purpose Sports Facility in Goromonzi, Garwe Stadium in Chivhu, Kwekwe Sports Arena and Chahwanda Stadium in the Midlands Province.

CONCLUSION

The Commission continues to make notable strides to position sport as a tool for socio-economic development in line with the country's National Development Strategy 2. The Commission thus deliberately commenced the resumption of the National Youth and Paralympic Games after a 5-year absence. The games serve as a pipeline for regional and continental games. While acknowledging the constrained operating environment, the Commission intends to forge ahead with external strategies to promote infrastructure investment and development as well as internal strategies for strengthening operational systems to ensure efficient service delivery.

Compliance Report

Governance Statement

The Board of the Sports and Recreation Commission ("the Commission") is fully committed to the principles of good corporate governance, ethical leadership, accountability, transparency, responsibility, integrity and sustainable performance as prescribed by the Public Entities Corporate Governance Act [Chapter 10:31]. The Board confirms that, to the best of its knowledge, the Commission has complied with the applicable provisions of the enabling Act, the Sports and Recreation Commission Act [Chapter 25:15] and the Public Entities Corporate Governance Act and other relevant legislation governing public entities during the reporting period.

Governance Framework

The Commission's operations are guided mainly by the following legislative and policy framework:

Constitution of Zimbabwe Amendment (No. 20) Act, 2013;
Sports and Recreation Commission Act [Chapter 25:15];
Public Entities Corporate Governance Act [Chapter 10:31];
Public Finance Management Act [Chapter 22:19];
Public Procurement and Disposal of Public Assets Act [Chapter 22:23];
Audit Office Act [Chapter 22:18];
Treasury Instructions and Government Circulars;
Applicable National Codes and Corporate Governance Guidelines.

Board Composition and Independence

The Board is appointed in accordance with the Sports and Recreation Commission Act as read with the Public Entities Corporate Governance Act. The Board comprises individuals with diverse competencies and experience in:

Law and compliance;
Sports administration;
Business Management;
Physical education;
Strategic Management;
Marketing and Public relations;
Public Administration.

The Board is collectively responsible for:

Strategic leadership;
Policy formulation;
Financial oversight;
Risk governance;
Monitoring organisational performance;
Ensuring legal and regulatory compliance.

The current board was appointed by the Minister of Sport, Recreation, Arts and Culture effective the 8th of July 2025 in line with the provisions of section 11(9) of the Public Entities Corporate Governance Act following the expiry of the term of the previous board.

Board Meetings and Attendance

A total of 8 Board meetings were held during the year. In line with the transition referred to above the following attendance was achieved for individual board members for the current board.

Board Member	Board	SRD	BDM	ARM	LC	FA	HR
Dr. N. Madzivanyika	6	N/A	N/A	N/A	N/A	N/A	N/A

Mr. V. Mudenda	6	1	N/A	1	N/A	N/A	N/A
Mr. G. Mharapara	5	1	N/A	N/A	1	N/A	N/A

Key:
SRD -Sports and Recreation Development Committee
BDM -Business Development and Marketing
ARM -Audit and Risk Management
LC -Legal and Compliance
FA -Finance and Administration
HR -Human Resources
N/A -Not a member of the committee

The Board is satisfied that members discharged their fiduciary responsibilities diligently and effectively.

Board Committees

In compliance with section 12 of the Sports and Recreation Commission Act as read with the provisions of the Public Entities Corporate Governance Act and general regulations, the Board operated through the following committees:

Committee	Membership	Responsibilities
Sport and Recreation Development	Mr. V. Mudenda (Chairperson) Mrs. L.N.S Chikara Mr. G. Mharapara	The Committee oversees: Sports and recreation development pathways; Talent identification; Sport education and training; Sport and recreation policy development.
Business Development and Marketing	Mr. Simba (Chairperson) Col. H. Dube Ms. S. Rhuhwaya	The Committee oversees: Commercialisation; Sustainability; Marketing and Public relations.
Audit and Risk	Col. H. Dube (Chairperson) Mr. G. Madzoka Mr V. Mudenda	The Committee oversees: Financial reporting oversight; Internal controls; Internal and external audit oversight; Risk management.
Legal and Compliance	Mr. G. Mharapara (Chairperson) Mr. G. Madzoka	The Committee oversees: Legal and regulatory affairs; Governance structures of sport organisations; Corporate governance; Sport tour clearances.
Finance and Administration	Mrs. L.N.S Chikara Mr. D. Simba Ms. S. Rhuhwaya	The Committee oversees: Corporate planning; Budget and budgetary control; Internal control; Efficient administration.
Human Resources	Mr. G. Madzoka (Chairperson) Col. H. Dube	The Committee oversees: Executive performance management; Succession planning; Remuneration; Human resources policies.

Performance Management and Performance Contracts

In accordance with the Public Entities Corporate Governance Act and Government policy, the Commission implemented a performance management framework for senior executives. Performance contracts were entered into between the Board and senior management and monitored periodically against agreed key performance indicators. Performance evaluations were conducted during the reporting period and informed organisational improvement initiatives. In 2025 the Board scored a 3.82 mark and the Director General 4.18.

Director Remuneration Disclosure

The Commission complied with Government policies and guidelines relating to remuneration and benefits for board members as directed by the Corporate Governance Unit from time to time. The aggregate remuneration paid during the year for the Board is reported in the Director General's Report which comprise retainer fees, data and airtime and board sitting fees.

Acting Director General: Peter Mudzimiri, 2025 AGM, Zimbabwe National Sports Stadium, Harare, Zimbabwe

Declaration of Interests and Conflict Management

The Board maintains a formal Conflict of Interest Policy. All Board members and senior executives are required to declare any actual, potential or perceived conflicts of interest. During the reporting period annual declarations were completed, conflict registers were maintained and recusal procedures were applied where necessary. The Board is satisfied that no undisclosed conflicts materially affected decision-making.

Risk Management and Internal Control

The Commission maintains a board-approved Risk Management Framework consistent with the Public Entities Corporate Governance Act. The Board identified and monitored strategic risks in the following areas:

Financial sustainability;
Governance and compliance;
Sports integrity and ethics;
Information technology;
Operational performance;
Reputational management.

Management implemented mitigation measures and regularly reported risk status to the Board. The Board reviewed the effectiveness of internal controls and is satisfied that adequate systems were maintained throughout the year.

Internal Audit

The Internal Audit Unit operated independently and reported functionally to the Audit and Risk Committee. During the period under review:

The annual audit plan was approved and substantially implemented;
Audit recommendations were monitored;
Follow-up audits were conducted;
Management implemented corrective actions where required.

External Audit

The Commission's financial statements were audited by the Auditor-General of Zimbabwe (though its appointee firm) in accordance with applicable legislation. The Board reviewed audit findings and management responses and monitored implementation of recommendations. Any material audit findings and corrective measures are disclosed elsewhere in this Annual Report.

Ethics, Integrity and Anti-Corruption

The Commission maintains a zero-tolerance approach to corruption, fraud and unethical conduct.
Measures implemented during the year included:

Enforcement of the Code of Ethics;
Fraud prevention measures;
Ethics awareness programmes;
Investigations of reported misconduct.

The Board continues to promote integrity within the Commission and across the sports sector with strict measures that have been undertaken for governance failures in sport organisations.

Compliance Statement

The Board confirms that during the period under review the Commission complied substantially with:

The Sports and Recreation Commission Act
The Public Entities Corporate Governance Act;
The Public Finance Management Act;
Public Procurement laws and regulations;
Applicable labour legislation;
Statutory reporting obligations

SRC Chairman Dr. Nathaniel Madzivanyika addressing the SRC 2025 AGM, Zimbabwe National Sports Stadium, Harare, Zimbabwe

Any instances of non-compliance identified during the reporting period were addressed through corrective action plans monitored by the Board.

Board Evaluation

The Commission did not manage to institute a board evaluation in the year 2025 as the current members were only appointed mid-year. A board evaluation exercise shall be implemented in the next financial year.

Sustainability and Stakeholder Engagement

The Commission continued to engage key stakeholders including:

Government Ministries;
National Associations;
Sport Delivery Agencies
Athletes;
Sponsors and development partners;
Local authorities;

Stakeholder feedback informed strategic planning and service delivery improvements which National Associations and Delivery Agencies attending the Commission's 2025 strategic planning session.

Corporate Governance Declaration

The Board is of the opinion that the Commission has maintained appropriate standards of corporate governance and has exercised its duties in good faith, with due care, skill and diligence as required by law. The Board remains committed to continuous improvement in governance practices and accountability to stakeholders.

Peter Mudzimiri
Director Legal and Corporate Services/Corporate Secretary

Financial Report

Overview

Our financial report for 2025 presents a notable deterioration in performance compared to prior year, with most performance indicators declining compared to prior year. This report has analysed the inflation-adjusted results of the financial position, performance, and cashflows of the Sports and Recreation Commission (SRC) such that performances for 2025 and 2024 are comparable 'like for like' at current prices (as at the end of 2025). The use of inflation-adjusted financial statements eliminates distortions that would arise if historical cost financial statements were used, in the context of an inflationary Zimbabwean economy that the SRC operates in.

Financial Position

The total asset base decreased by ZWG 6,872,626 (-42%) as seen by a decline in both non-current assets (PPE -11%) and current assets (-85%). The decline in non-current assets was largely attributable to depreciation of the assets of the Commission, as disposals was insignificant and the addition of assets more than offset by depreciation and impairment of assets.

Current Assets decreased by ZWG 5,838,112 (85%) compared to prior year to ZWG1,058,369 primarily due to a reduction in receivables from fixed term deposits which were transferred in 2025 to the Ministry of Sport, Recreation, Arts and Culture (the Ministry), account which were previously ZWG 5,091,941 in 2024 to ZWG 134,157 in 2025.

Financial Performance

Compared to prior year, total revenue (inclusive of grants, transfers, taxes/ levies and other income) declined by 12.59% to ZWG 45,723,555 from ZWG 52,306,555. The decline in revenue was compounded by an increase in expenditure of 21.37% to ZWG 51,332,056 from ZWG 42,294,177 outpacing revenue growth and pressuring capacity to generate surpluses, and consequently resulting in a deficit of ZWG 5,046,941 in 2025 compared to a surplus of ZWG 10,012,239 accumulated in 2024. The Deficit was partly due to the increase in Sports Development projects that were successfully executed in 2025 and staff benefits (such as fuel) which were accrued, because a Treasury circular on quantum was applied in retrospect.

Cashflows

Net cashflows generated by the SRC deteriorated slightly to ZWG 908,691 (-3%), from ZWG 937,865. Overall, current assets declined 85% to ZWG 1,058,369 compared to ZWG6,896,481 in 2024 representing a worsening liquidity even if current liabilities were stable despite increasing 10% to ZWG 7,777,946 in 2025, compared to ZWG 7,008,297 in prior year. The decline in liquidity was largely due to the reduction in cash resources, the transfer of funds from a matured fixed-term deposit (USD120,000.00) investment to the line Ministry, and the utilisation of accumulated cash savings to finance ongoing operations. The investment was derived from stadium hire fees for the Jehovah's Witnesses International Conference hosted at the National Sports Stadium, which had been recorded as deferred income but ceased to be SRC money when the capital amount was transferred to the line Ministry. The major driver in the movement in working capital was due to the transfer of the proceeds from the matured investment and it accounted for the greater portion of the decline in the current ratio.

The Commission only managed to receive project specific grants for independence, Annual Sports Awards and AUSC Region 5 Games (received partly in local currency and in USD) for the period under review. Only ZWG100,000 was received for Operations.

Below is a detailed summary of the non-salary Government Grant received by the SRC in the year under review:

Details	Grant Received on Specific Projects
Independence & Children's Party Cup	4,476,963.92
Africa Union Region 5 Games	5,304,960.00
Annual Sports Awards (ANSA)	4,320,000.00
ZOC Olympics	2,769,506.16
Special projects (VP Mohadi Marathon)	918,436.16
Operations	100,000.00

Outlook

The Board and Management continue to be focused on improving overall performance of the SRC by streamlining operations to create cost efficiencies and effectively discharge the Commission's mandate.

Summary of SRC Financial Position, Performance and Cash Flows for 2025 (Inflation Adjusted)

Commissioners' Responsibility Statement and Approval

The Commissioners are responsible for the maintenance of adequate accounting records and are responsible for the content and integrity of the financial statements and related financial information included in this report. It is their responsibility to ensure that the financial statements fairly present the state of affairs of the Commission as at the end of the financial year and the results of its operations and cash flows for the period then ended, in conformity with International Public Sector Accounting Standards (IPSAS). The external auditors are engaged to express an independent opinion on the financial statements.

The financial statements are prepared in accordance with International Public Sector Accounting Standards (IPSAS) and are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

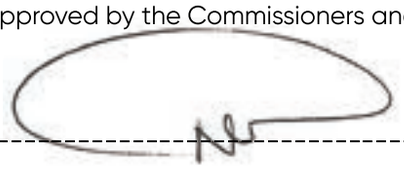

The Commissioners acknowledge that they are ultimately responsible for the system of internal financial control established by the Commission and place considerable importance on maintaining a strong control environment. The Commissioners set standards for internal control aimed at reducing the risk of error or loss in a cost-effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the Commission and the Commission is required to maintain the highest ethical standards in ensuring the Commission's business is conducted in a manner that, in all reasonable circumstances, is above reproach. The focus of risk management in the Commission is on identifying, assessing, managing and monitoring all known forms of risk across the Commission. While operating risk cannot be fully eliminated, the Commission endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The Commissioners are of the opinion that, based on the information and explanations given by management, the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss. The Commissioners are satisfied that the Commission has or has access to adequate resources to continue in operational existence for the foreseeable future.

Financial Statements are prepared with the aim of complying with International Public Sector Accounting Standards (IPSAS). The Commissioners assessed the ability of the Commission to continue operating as a going concern and believe that the preparation of the financial statements on a going concern basis is still appropriate.

The external auditors are responsible for independently reviewing and reporting on the Commission's financial statements. The financial statements have been examined by the Commission's external auditors and their report is presented on pages 5 to 7.

The financial statements set out on pages 8 to 34, which have been prepared on the going concern basis, were approved by the Commissioners and were signed on their behalf by:

Board Chairperson

Director General

Date of Approval: 3 July 2026

To The Commissioners of Sports and Recreation Commission

Opinion

We have audited the accompanying financial statements of Sports and Recreation Commission, set out on pages 8 to 34, which comprise the statement of financial position as at 31 December 2025, the statement of financial performance, statement of changes in net assets and statement of cash flows for the year then ended, and the notes to the financial statements, which include a summary of significant accounting policies and other explanatory notes.

In our opinion the financial statements present fairly, in all material respects, the financial position of Sports and Recreation Commission as at 31 December 2025 and its financial performance and cash flows for the year then ended in accordance with International Public Sector Accounting Standards (IPSAS).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of Sports and Recreation Commission in accordance with the International Ethics Standards Board for Accountants (IESBA) Code together with the ethical requirements that are relevant to our audit of financial statements in Zimbabwe and we have fulfilled our other ethical responsibilities under these ethical requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have no key audit matters to communicate in this report.

Other Information

The Commissioners are responsible for the other information. The other information comprises the Commissioners' responsibility statement and approval. The other information does not include the financial statements and our auditor's opinion thereon. Our opinion on the financial statements does not cover the other information and we do not express any form of assurance or conclusion thereon.

In connection with our audit our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of the auditor's report, we conclude that there is a material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Commissioners are responsible for the preparation and fair presentation of these financial statements in accordance with International Public Sector Accounting Standards (IPSAS), the requirements of Sports and Recreation Commission Act (Chapter 25:15), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatements, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Commission's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Commissioners either intend to liquidate the Commission or to cease operations, or have no realistic alternative but to do so. Those charged with governance are responsible for overseeing Sports and Recreation Commission's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional

scepticism throughout the audit. We also identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

We obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sports and Recreation Commission's internal controls. We evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

We conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Sports and Recreation Commission's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Sports and Recreation Commission to cease to continue as a going concern.

We evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation. We obtain sufficient audit evidence regarding the financial information of Sports and Recreation Commission or business activities of Sports and Recreation Commission to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of Sports and Recreation Commission's audit. We remain solely responsible for our audit opinion.

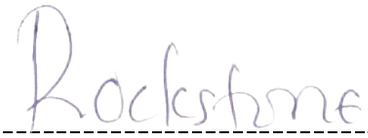

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on legal and regulatory requirements

The financial statements have been prepared in compliance with the requirements of Sports and Recreation Act (Chapter 25:15).

1. Nature of business

The Sports and Recreation Commission coordinates, controls and develops the activities of sport and recreation, to ensure proper administration of organisations undertaking the promotion of sports and recreation and to authorise national and international sporting and recreation activities.

2. Basis of preparation

2.1 Statement of compliance

The financial statements have been prepared in accordance with International Public Sector Accounting Standards (IPSAS) as issued by the International Public Sector Accounting Standards Board (IPSASB), and in compliance with Sports and Recreation Act (Chapter 25:15).

2.2 Basis of measurement

The financial statements have been prepared on the historical cost basis. The principal accounting policies adopted in the preparation of financial statements are set out below.
The historical financial statements have been restated to take account of inflation in accordance with IPSAS 10, Financial Reporting in Hyperinflationary Economies.

Functional currency

The financial statements are presented in Zimbabwe Gold (ZWG), which is the functional and presentation currency of the entity. The financial statements are prepared on an accrual basis. A summary of the significant accounting policies, which have been consistently applied, are disclosed below and all values are rounded to the nearest ZWG except when otherwise indicated.

Application of IPSAS 10 (Financial Reporting in Hyperinflationary Economies)

These financial results have been prepared in accordance with IPSAS 10 which requires that the financial statements of any entity whose functional currency is the currency of a hyperinflationary economy be stated in terms of the measuring unit current at the reporting date and that corresponding figures for the previous period also be restated in terms of the same measuring unit. The Commission adopted the Zimbabwe consumer price index (CPI) compiled by Zimbabwe National Statistics Agency (ZIMSTAT) as the general price index to restate transactions and balances as appropriate.

The indices and conversion factors used to restate these financials are given below:

Period	Currency	Indices	Conversion factor
December 2024	ZWG	166.3	1.504
December 2025	ZWG	191.31	1

The procedures applied in the above restatement of transactions and balances are as follows:

All comparative figures as at end of the period 31 December 2024 were restated by applying the change in the index from the date of last re-measurement to 31 December 2025.
Monetary assets and liabilities were not restated because they are already stated in terms of the measuring unit current at the reporting date.
Non-monetary assets and liabilities that are not carried at amounts current at balance sheet date and components of equity reserves were restated by applying the change in the index from the date of the transaction or if applicable from the date of their most recent revaluation to 31 December 2025.
Property and equipment is restated by applying the change in the index from the date of transaction to 31 December 2025.
Items recognised in the income statement have been restated by applying the change in the general price index from the dates when the transactions were initially earned or incurred. Depreciation and amortisation amounts are based on the restated costs or carrying amounts.
Income statement items/transactions, except for depreciation and amortisation charges explained above, are restated by applying the monthly index for the year ended 31 December 2025.
All items in the statement of cash flows are expressed in terms of the general price index at the end of the reporting period.

2.3 Functional and presentation currency

These financial statements are presented in Zimbabwean Gold (ZWG) which is the Commission's functional currency. All the financial information presented has been rounded off to the nearest ZWG.

2.4 Critical judgments and estimates

In the application of the Commission's accounting policies, management is required to make judgments, estimates and assumptions that affect the amounts presented in the financial statements and related disclosures. Use of available information and the application of judgment are inherent in the formation of estimates. Actual outcome may differ from these estimates which may be material to the financial statements. Significant judgments include the following:

2.4.1 Useful lives and residual values of property, plant and equipment

The Commission assesses useful lives and residual values of property, plant and equipment each year taking into account past experience and technology changes. The depreciation rates are set out in note 3 and no changes to these useful lives have been considered necessary during the year. Management has set residual values for all classes of property, plant and equipment at zero.

2.5 New International Public Sector Accounting Standards (IPSAS), interpretations and amendments.

The following are standards that have been issued by International Public Sector Accounting Standards Board (IPSASB) and their respective effective dates.

a. Amendments to International Public Sector Accounting Standards (IPSAS) 36 – Long term interest in associates and joint ventures

The amendments to IPSAS 36 were to converge with narrow -scope amendments to IAS 28. The amendments were not applicable to the entity since we currently do not have investments in Joint Ventures.

b. International Public Sector Accounting Standards (IPSAS) 42 - Social Benefits

The standard provides guidance on accounting for social benefits expenditure. The definition as per standard is cash transfers paid to specific individuals and/or households to mitigate the effect of social risk. Specific examples include, state retirement benefits, disability benefits, income support and unemployment benefits. The new standard requires an entity to recognise an expense and a liability for the next social benefit payment. The standard seeks to improve the relevance, faithful representativeness and comparability of the information, that the entity provides in its financial statements, information pertaining to social benefits. However, the standard establishes principles and requirements for: - recognizing expenses and liabilities for social benefits, measuring expenses and liabilities for social benefits, presenting information about social benefits in the financial statements; and determining what information to disclose to enable users of the financial statements to evaluate the nature and financial effects of the social benefits provided by the reporting entity.

c. International Public Sector Accounting Standards (IPSAS) 43 - Leases

The standard is based on IFRS 16 - Leases". The new standard introduces a right-of-use model that replaces the risks and rewards incidental to ownership model in IPSAS 13, leases to lessees. For lessors, IPSAS 43 substantially carries forward the risks and rewards incidental to ownership model in IPSAS 13. The standard is effective for the period beginning on or after January 01, 2025. The entity has early adopted and applied the new standard from 1 January 2024 in line with the requirements of the ZFRM.

d. International Public Sector Accounting Standards (IPSAS) 44 - Non-current assets held for sale

The standard specifies the accounting for assets held for sale and the presentation and disclosure of discontinued operations. It requires assets that meet the criteria to be classified as held for sale to be: i. measured at the lower of carrying amount and fair value less costs to sell and depreciation on such assets to cease; and ii. presented separately in the Statement of Financial Position and the results of discontinued operations to be presented separately in the Statement of Financial Performance. The standard is effective for the period beginning on or after January 01, 2025. The entity has early adopted and applied the new standard from 1 January 2024 in line with requirements of the ZFRM.

e. International Public Sector Accounting Standards (IPSAS) 45 - Property, plant and equipment

The standard replaces IPSAS 17- Property, Plant, and Equipment. The new standard adds current operational value as a measurement basis in the updated current value model for assets within its scope. It further identifies the characteristics of heritage and infrastructure assets, and provides guidance on how these important types of public sector assets should be recognized and measured. The standard is effective for the period beginning on or after January 01, 2025. The entity has early adopted and applied the new standard from 1 January 2024 in line with requirements from the ZFRM.

f. International Public Sector Accounting Standards (IPSAS) 46 – Measurement

The standard provides new guidance in a single standard addressing how commonly used measurement bases should be applied in practice. It brings in generic guidance on fair value for the first time, and introduces current operational value, a public sector specific current value measurement basis addressing constituents' views that an alternative current value measurement basis to fair value is needed for certain public sector assets. The standard is effective for the period beginning on or after January 01, 2025. The entity has early adopted and applied the new standard from 1 January 2024 in line with requirements from the ZFRM.

2.5 New International Public Sector Accounting Standards (IPSAS), interpretations and amendments. (Continued)

g. International Public Sector Accounting Standards (IPSAS) 47 – Revenue

The standard is a single source for revenue accounting guidance in the public sector, which presents two accounting models based on the existence of a binding arrangement. This new standard provides focused guidance to help entities apply the principles to account for public sector revenue transactions. The standard is effective for the period beginning on or after January 01, 2026. The entity has early adopted and applied the new standard from 1 January 2024 in line with requirements from the ZFRM.

h. International Public Sector Accounting Standards (IPSAS) 48 – Transfer Expenses

The standard is a single source for transfer expense guidance in the public sector, which presents two accounting models based on the existence of a binding arrangement. This new standard provides focused guidance to help entities apply the principles to account for public sector transfer expense transactions. The standard is effective for the period beginning on or after January 01, 2026. The entity has early adopted and applied the new standard from 1 January 2024 in line with requirements from the ZFRM.

3 Summary of significant accounting policies

The accounting polices below are IPSAS compliant but are based on the ZFRM.

3.1 Revenue

3.1.1 Revenue from transactions without binding arrangements

Revenue from transactions without binding arrangements are when the entity or the other party does not have both an enforceable right or an enforceable obligation through legal or equivalent means.

The entity recognises revenue from transactions without binding arrangements when (or as) the entity satisfies any obligations associated with the inflow of resources that met the definition of a liability or immediately if the entity does not have an enforceable obligation associated with the inflow of resources. The following are the accounting policies adopted on each significant revenue line:

Transfers - This includes monies received from government and/or other government entities. Transfers are recognised on receipt as there is no enforceable right before the funds are transferred to entity. The entity does not have any binding obligations associated with the inflow once the funds are received.

Taxes - These are all compulsory contributions other than fines and penalties charged on motor vehicle insurance. Taxes include levies and revenue from taxes is recognised on the occurrence of a taxable event.

Fines and Penalties are recognised by entity once there is an enforceable right to collect the fine/penalty.

3.1.2 Revenue from transactions with binding arrangements

Revenue from transactions with binding arrangements are when the entity or the other party has both an enforceable right or an enforceable obligation through legal or equivalent means. The entity accounts for services using revenue model that uses costs incurred to date as percentage for total cost as estimate for the revenue to be recognised.

3.2 Other income

Other income is recognised on an accrual basis over the period in which it is realised based on the underlying agreements.

3.3 Transfer expenses from transactions without binding arrangements

For transactions where the entity has a legal or constructive obligation related to the transfer, the expense is recognised and measured as a provision and an expense under IPSAS 19 - Provisions, Contingent Liabilities and Contingent Assets. The transfer of resources to the partner settles the provision.

3.3.1 Transfer expenses from transactions with binding arrangements

For transfer expenses where the entity has binding arrangements, and transfers resources prior to the partner/beneficiary satisfying their obligation a transfer right asset is recognised. In instances where the partner/beneficiary satisfies the obligations prior to the entity transferring resources, a transfer obligation liability is recognised by the entity. An expense is recognised when (or as) transfer right asset is derecognised or a transfer obligation liability is recognised.

3.4 Grants

A capital transfer transaction imposes at least one performance obligation on the entity. The entity recognises revenue as it satisfies its performance obligations in a capital transfer transaction. The entity separately determines whether the inflow of resources from a capital transfer is to be recognised as an asset or a liability. The carrying amount of any such liability is reduced as revenue is recognised.

3.5 Inventories

Inventories are initially measured at cost except where inventories are acquired through a non-exchange transaction, then their costs are their fair value as at the date of acquisition.

Subsequently inventories are measured at the lower of cost and net realisable value. When inventories are distributed or deployed at no charge or for a nominal charge, that class of inventory is measured at the lower of cost and current replacement cost, the carrying amounts of those inventories are recognised as an expense. The amount of any write-down of inventories to the net realisable value or current replacement cost and all losses of inventories are recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in the net realisable value or current replacement cost, are recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

3.6 Property plant and equipment

Summary of PPE accounting policies

Property, plant and equipment (PPE) are tangible assets which the entity holds for its own use which are expected to be used for more than one year. An item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the entity, and the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost unless it is acquired through a non-exchange transaction. Cost includes all of the expenditure which is directly attributable to the acquisition of the asset, including the capitalisation of borrowing costs on qualifying assets. When significant parts of property, plant and equipment are required to be replaced at intervals, the entity recognises such parts as individual assets with specific useful lives and depreciates them accordingly.

Property, plant and equipment acquired through a non-exchange transaction is measured at its deemed cost. The deemed cost is used as a surrogate for a transaction price at the measurement date. The entity uses measurement techniques that are appropriate in the circumstances and for which sufficient data are available to determine the deemed cost.

3.6.1 Depreciation

Depreciation, which is calculated on the straight-line basis, is provided to write off the cost less the estimated residual value of fixed assets over their estimated useful lives. The entity assesses useful lives and residual values of property, plant and equipment each year taking into account past experience and technological changes.

The rates that were applied per annum are as follows:
The useful lives of items of property, plant and equipment have been assessed as follows:

Item	Average useful life
Buildings	40 years
Furniture and fittings	10 years
Motor vehicles	5 years
Office equipment	10 years
IT equipment	3 years

3.6.2 Revaluation of property, plant and equipment

Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from those that would be determined using fair values at the end of the reporting period.

Any revaluation increase arising on the revaluation of property, plant and equipment is recognised in revaluation surplus, except to the extent that it reverses a revaluation decrease for the same class of asset previously recognised in surplus or deficit. A decrease in the carrying amount of a class of assets arising on the revaluation of such property, plant and equipment is recognised in surplus or deficit to the

3 Summary of significant accounting policies (Continued)

3.6 Property plant and equipment (Continued)

3.6.2 Revaluation of property, plant and equipment (Continued)

extent that it exceeds the balance, if any, held in asset revaluation surplus relating to previous revaluation of the class of asset.

Revaluation increases or decreases relating to individual assets within a class of property plant and equipment are offset against one another within that same class but are not offset in respect of assets in different classes.

Depreciation on revalued assets is recognised in surplus. Land and buildings are separable assets and are accounted for separately even though they might be acquired together.

The entity measures the revalued amounts of buildings as being the current operational value. In accounting for revalued buildings, the entity eliminates the accumulated depreciation against the gross carrying amount.

3.7 Financial instruments

Financial instruments are contracts that give rise to financial assets or financial liabilities. Financial assets and financial liabilities are recognised on the entity's Statement of Financial Position when the entity becomes a party to the contractual provisions of the instrument. The entity determines the classification of its financial assets at initial recognition.

Non-derivatives financial instruments carried in the Statement of Financial Position comprise: cash and cash equivalents, trade and other receivables, trade and other payables and loans receivables. These instruments are recognised initially at fair value plus any directly attributable transaction costs.

3.7.1 Financial assets

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits (funds on placement) with maturities of three months or less from acquisition date that are subject to an insignificant risk of changes in fair value, and are used by the entity in the management of its short-term commitments. Cash and cash equivalence are initially measured at fair value and subsequently measured at amortised cost, which, due to their short-term nature, closely approximate their fair value.

Trade and other receivables

Trade and other receivables are initially measured at transaction price and subsequently measured at amortised cost using the effective interest rate method. The gross carrying amount is reduced by expected credit losses to reflect the amortised cost of the financial assets.

A provision for impairment of trade receivables is established when there is objective evidence that the entity will not be able to collect all amounts due according to the original terms of receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization and default or delinquency in payments are considered indicators that the trade receivables are impaired. When a trade receivable is uncollectable, it is written off against the allowance for trade receivable. Subsequent recoveries of amounts previously written off are credited against the trade receivables impairment provision in surplus or deficit.

Loans and receivables

Loans and receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are recognised initially at fair value plus any directly attributable transaction costs.

Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method, less any impairment losses. The entity's Loans and receivables are made up of staff and management housing loans.

Other

Finance income, foreign exchange gains and losses and expected credit losses are recognised in the Statement of Financial Performance.

3 Summary of significant accounting policies (Continued)

3.7 Financial instruments (Continued)

3.7.1 Financial assets (Continued)

Impairment

The entity recognises loss allowances for expected credit losses (ECLs) on financial assets measured at amortised cost. The simplified approach has been applied in determining the expected credit losses using a lifetime expected loss allowance measured using a provision matrix. Related party receivables are considered to be trade receivables and as a result these balances are also assessed using the simplified approach.

The entity applies the impairment requirements for the recognition and measurement of a loss allowance for financial assets that are measured at fair value through net assets/equity the loss allowance is recognized in net assets/equity and does not reduce the carrying amount of the financial asset in the Statement of Financial Position.

Impairment losses are recognised in surplus or deficit.

3.7.2 Financial Liabilities

Financial liabilities of the entity are classified at amortised cost. Accordingly, the financial liabilities are initially measured at fair value net of directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

The entity recognises a gain or loss of financial liabilities carried at amortised cost, in surplus or deficit through the amortisation process and when the financial asset or financial liability is derecognised or impaired.

Trade and other payables

The entity recognises in trade and other payables an amount for accruals where an estimate is made of the amounts due for goods or services that have been received or supplied, but an invoice or formal request for payment may not been received at the reporting date.

3.8 Employee benefits

3.8.1 Short-term employee benefits

The cost of Short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted. The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments.

3.8.2 Retirement benefits

Retirement benefits are provided for the entity employees through independently administered and defined contribution schemes, including the National Social Security Authority (NSSA). Contributions to the defined contribution fund are expensed in surplus or deficit as they fall due. The cost of retirement benefits applicable to National Social Security Authority is determined by the systematic recognition of legislated contribution.

3.9 Provisions

The entity recognises provisions when there is a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in surplus or deficit net of any reimbursement. The reimbursement shall be treated as a separate asset. The amount recognised for the reimbursement shall not exceed the amount of the provision. Provisions are not recognised for future operating losses.

A contingent asset is disclosed, where the entity, where an inflow of economic benefits or service potential is probable, but the inflow did not meet the recognition criteria of an asset.

3 Summary of significant accounting policies (Continued)

3.9 Provisions (Continued)

A contingent liability is disclosed, unless the possibility of an outflow of resources embodying economic benefits or service potential is remote.

3.10 Budget information

The annual budget is prepared on the accrual basis; that is, all planned costs and income are presented in a single statement to determine the needs of the entity. As a result of the adoption of the accrual basis for budgeting purposes, there are no basis or timing differences that would require reconciliation between the actual, comparable amounts, and the amounts presented as a separate additional financial statement in the Statement of Comparison of Budget and Actual Amounts.

Explanatory comments are provided in the notes to the annual financial statements; first, the reasons for overall growth or decline in the budget are stated, followed by details of overspending or underspending on line items.

3.11 Leases

The entity assesses whether a contract is, or contains a lease, at the inception of the contract. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. A lease liability and corresponding right-of-use asset are recognised at the lease commencement date, for all lease agreements for which the entity is a lessee, except for short-term leases of 12 months or less, or leases of low value assets. For these leases, the entity recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the entity uses its incremental borrowing rate. Right-of-use assets are presented as a separate line item on the Statement of Financial Position.

3.12 Foreign currency transactions

Transactions in foreign currencies are initially accounted for at the ruling rate of exchange on the date of the transaction. Trade creditors or debtors denominated in foreign currency are reported in the Statement of Financial Position reporting date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from the reporting of creditors at rates different from those at which they were initially recorded during the period, are recognised as income or expenses in the period in which they arise.

3.13 Critical accounting judgments, estimates and assumptions

In preparing the financial statements, management is required to make judgments, estimates and assumptions that affect the amounts presented in the financial statements and related disclosures. Use of available information and the application of judgment are inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the financial statements. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. Significant judgments include the following:

a. Useful lives and residual values of infrastructure, property, plant and equipment.

The entity assesses useful lives and residual values of property, plant and equipment each year taking into account past experience and technology changes. The depreciation rates are set out in note 3.6.1 and no changes to these useful lives have been considered necessary during the year. Entity management has set residual values for all classes of property, plant and equipment at zero.

b. Impairment

At each Statement of Financial Position date, the entity reviews the carrying amount of its assets to determine whether there is an indication that those assets suffered any impairment. If any such indication exists, the recoverable amount of the assets is estimated in order to determine the extent of the impairment (if any). If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Impairment is recognised as an expense immediately, unless the relevant asset is carried at a revalued amount, in which case the impairment is treated as a revaluation decrease.

c. Allowances for credit losses

The entity provides for an allowance for expected credit losses on all its receivables. The allowance for credit losses is provided for on initial recognition of a receivable and throughout the life of the receivable at an amount equal to lifetime expected credit losses. The entity uses a provision matrix to estimate the

3 Summary of significant accounting policies (Continued)

3.13 Critical accounting judgments, estimates and assumptions (Continued)

allowance for expected credit losses.

d. Going concern

The entity has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue with its mandate for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt on the entity's ability to continue as a going concern. Therefore, the financial statements were prepared on a going concern basis.

e. Functional and presentation currency

The financial statements are presented in Zimbabwe Gold (ZWG), being the presentation currency. The functional currency is the currency of the primary economic environment in which the entity operates. The primary economic environment in which the entity operates, is normally the one in which it primarily generates and expenses cash. The entity assessed its functional currency to be Zimbabwe Gold (ZWG).

f. Effects of changes in foreign exchange rates

A foreign currency transaction shall be recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction. Entity applied the spot rate using the interbank rate during the year ended 31 December 2025. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in surplus or deficit in the period.

When a gain or loss on a non-monetary item is recognised directly in net assets/equity, any exchange component of that gain or loss shall be recognised directly in net assets/equity. Conversely, when a gain or loss on a non-monetary item is recognised in surplus or deficit, any exchange component of that gain or loss shall be recognised in surplus or deficit.

3.14 Related parties

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the party in making financial and operating decisions. The Commission has related party relationships with its key management, the Commissioners and the Ministry of Sports, Recreation, Arts and Culture.

Remuneration of Director General and key management staff of the Commission comprise of an annual basic salary, annual bonus, social security contribution, pension contributions, medical aid contribution and other benefits. The amounts paid to members of the Board vary depending on the number of sittings.

12. Financial Instruments

Financial risk management objectives and policies
The entity's principal financial liabilities are comprised of overdrafts and trade payables. The main purpose of these financial liabilities is to raise finance for the reporting entity's operations. The reporting entity has various financial assets such as trade receivables and cash and short-term deposits which arise directly from its operations. The main risks arising from the reporting entity's financial instruments are interest rate risk, foreign currency risk, credit risk, and liquidity risk. The entity's Director of Finance reviews and agrees on policies for managing each of these risks which

Interest rate risk
The entity has adopted a non-speculative policy on managing interest rate risk. Only approved financial institutions with sound capital bases are used to borrow funds and to invest surplus funds.

Foreign currency risk
As a result of significant investment operations for the reporting entity in other countries, the reporting entity's statement of financial position can be affected significantly by movements in ZWG against those countries' currencies. The reporting entity seeks to mitigate the effect of its structural currency exposure by borrowing in ZWG and also establish the relationship with its main customers in ZWG. The reporting entity also has transactional currency exposure. Such exposure arises from sales or purchases by an operating unit in currencies other than the unit's functional currency. To reduce such risk the reporting entity requires operating units and its subsidiaries to transact with its customers and suppliers as much as possible in ZWG. The reporting entity has a translation currency exposure mainly resulting from the entities where their functional currency is other than ZWG. Those entities are the entities under the reporting entity where the functional currency is mainly other than ZWG. The effect of transactional to reporting currency is shown as part of equity. The main effect of foreign currency risk that may affect is related to translation of monetary assets denominated in other currencies. Those assets are not significant to the

Credit Risk
The entity trades only with recognised, creditworthy third parties. It is the reporting entity's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. In addition, receivable balances are monitored on an ongoing basis, with the result that the reporting entity's exposure to bad debts is not significant. For transactions that do not occur in the country of the relevant operating unit, the reporting entity offers credit terms and negotiates the contracts upon the approval of the Director. The entity also monitors the ageing of the trade receivables continuously and follows up with the relevant operating unit on overdue balances. There are no significant concentrations of credit risk within the reporting entity. It operates in a number of geographical segments across various areas of activity. The customer base consists of a large number of customers with different types, such as private and international funds. Management, therefore, believes that there are no significant concentrations of credit risk within the reporting entity. With respect to credit risk arising from other financial assets of the reporting entity, which comprise cash and cash equivalents, and notes, the reporting entity's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments.

12. Financial Instruments (Continued)

Liquidity Risk

The entity monitors its risk of a shortage of funds using a recurring liquidity planning tool. This tool considers the maturity of both its financial investments and financial assets (e.g. accounts receivable and other financial assets), as well as projected cash flows from operations. The reporting entity's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans and finance leases. The table below summarises the maturities of the reporting entity's undiscounted financial liabilities at 31 December, based on contractual payment dates and current market conditions.

Amounts in ZWG

31 December 2025	1 - 6 months	6 - 12 months	1 - 5 years	Greater than 5 years	Total

Total	**4 999 377**				**4 999 377**

31 December 2024	1 - 6 months	6 - 12 months	1 - 5 years	Greater than 5 years	Total
	ZWG	ZWG	ZWG	ZWG	ZWG
Accounts payable and other liabilities	2 845 437				2 845 437
Total	**2 845 437**				**2 845 437**

13 Pension arrangement - National Social Security Authority

The National Social Security Authority was introduced on 1st October 1994 and with effect from that date all employees are members of the scheme to which both employees and the Commission contribute as follows:

Employees : 4,5% of monthly basic salary
Commission : 4,5% of monthly basic salary

14 Going concern

The financial statements are prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities will occur in the ordinary course of business. The Commissioners have satisfied themselves that Sports and Recreation Commission is in sound financial position and has adequate resources to continue in operation for the foreseeable future.

15 Subsequent events

There were no significant subsequent events after the reporting date that warranted disclosure

Sports and Recreation Development Report

Sport and recreation performance surpassed targets in the period under review. The major sport and recreation outcomes as set out in the NDS 1 blueprint are improved sport performances and increased participation in sport and recreation.

Major Highlights - Analysis of Performance

During the year 2025, a total of 14,250 712 participants in sport and recreation activities were recorded. The period recorded a positive variance of 5, 450 712 as compared to a total of 4,915 933 recorded during the same period in 2024. The year under review was characterized by a surge in school, collegiate and community sport and recreation club activities.

Table: Outputs for year 2025

FOCUS AREA	2024 Target	2024 Actual	Variance	2025 Target	2025 Actual	Variance	Movement

Sport and Recreation Infrastructure Upgrading Towards Standardization and Access to Existing Facilities

A total of twelve (12) sports facilities underwent full refurbishment between January and December 2025. These include:

The Karigamombe Multi-purpose Court in Mashonaland West, which was newly constructed and completed within the review period. The facility was officially commissioned by the Deputy Minister of Sport, Recreation, Arts and Culture, Honourable Emily Jesaya, on 13 March 2025. Mkoba Teachers College Multi-Purpose Facility in the Midlands.
Richwood Sports Club in Harare.
The Astro Falcon Hockey Turf at Falcon College in Matabeleland South.
The Oliver Juru Multi-Purpose Sports Facility in Goromonzi District.
Garwe Stadium in Chivhu, Mashonaland East.
Sakubva Stadium (stadium access points), Sakubva Swimming Pool.
Mutare Girls High School Multi-purpose courts.
Kwekwe Sports Arena Motor Racing Course.
Chahwanda Stadium in Kwekwe.
Mutora Stadium at Nembudziya Centre, Gokwe in preparation for the 2025 National Independence Day Celebrations Commemorations.
Construction works at Maphisa Stadium, Matebeleland South, the venue for the 2026 National Independence Day Commemmorations commenced in August 2025.

Sport 4 Sustainable Development Goals (SDGs)

During the period under review, the Commission implemented programs that promoted Positive Social Change, Awareness and Fight against Drug and Substance Use and Health and Wellness in line with the SDGs – SDG 3, 4, 9, 16, respectively).
An analysis of Sport for Development Programs implemented during the period under review is given in Table 6.

Sport for Development Analysis

	Platforms Activated	Number of participants	Example
SDG3: Good Health and Wellbeing – 1. Drug and Substance Abuse	226	348,735	1. Mabasa Games on drug and substance abuse awareness (Mabasa Business Centre, Zvishavane – 17/01/25) 2. Bluewood Handball Tournament: Campaign against Drug use among youths (Masvingo Polytechnic College, 17/05/25) 3. Munhumutapa Day Run for a Drug Free Future (Zvishavane, 14/09/25) 4. International U16 Football Exchange Program, (Binga High School, 12/10/25)
2. Wellness and Health (all sports and recreation platform feed into this SDG)	10,713	14,250,712	1. Stableford Golf Tournament (Masvingo Golf Club, 15/01/25) 2. Under 20 Barthes Trophy 2025 (Old Hararians Sports Club, 19-27/04/25) 3. Danhiko Annual Games, (Danhiko College, Harare, 18-21/09/25) 4. Inter-Ministerial Sports Festival, (UCE Bulawayo, 05-10/10/25)
SDG4: Quality Education – Sport Education and Training	107	3,578	1. AUSC Team Zimbabwe Induction (SRC Boardroom, 16/01/25) 2. CAF C Diploma Course (ZIFA Village, 10-22/06/25) 3. FIH Level 1 Coaching Course, (St Johns Pre Senior School Turf, 29-30/08/25) 4. World Athletics CECS Level 1, (White City Stadium, 05-07/12/25)
SDG16: Peace, Justice and Strong Institutions – Events Hosted	182	62,965	1. Zimbabwe/Afghanistan Bilateral Tour, (Queens Sports Club, 01/25) 2. Zimbabwe Tertiary Institutions Sports Union (ZTISU) Games (Bulawayo, 24-28/06/25) 3. TotalEnergies U-17 Boys Africa Cup of Nations – COSAFA Qualifiers. Ngoni Stadium & Heart Stadium 11-20/09/2025 4. Netone Albun Honde Valley Marathon, (Honde Valley, 22/11/2025)
SDG9: Industry, Innovation and Infrastructure – Facility refurbishments	33	-	12 facilities were completely refurbished and 33 are still under active refurbishment.

Clearances Processed

Fife Hundred and Fifty-Three (553) clearances were processed during period under review. Table 7 gives an analysis of the Tours Cleared according to their level of competition.

Analysis of Tours

Competition Level	Number of Tours	Major Tour by name
National	42	1. NAAZ - National Cross Country 22 February 2025
		2. Supermed Health Expo Community Activity 3 May 2025
		3. FEI National Championships (Equestrian) 27-30 August 2025
		4. Botswana, Lesotho and Mozambique athletes' participation in the 3rd Vipers Taekwondo Club Championship, Midlands 28-29/11/25
Regional	242	1. ZNPC – OCC Outeniqua Wheelchair Challenge 22 February 2025
		2. Zone 6 International Handball Federation (IHF) Trophy 28 April to 04 May 2025
		3. Zimbabwe vs Zambia Volleyball Friendlies 06-07 September 2025
		4. Netball Male Team participation in Africa Championship Cup Tournament, Blantyre, Malawi 08-14/12/25
Continental	85	1. 2026 Senior Women AFCON – Zimbabwe vs Angola 17 – 26 February 2025
		2. 2025 Africa Schools Individual Chess Championship 22-29 ay 2025
		3. 4th Edition of the Southern African Correctional/Prisons/Penitentiary Services Sports and Culture Games 03-09 August 2025
		4. Afghanistan Senior Men Cricket Team participation in Bilateral Series, Harare 16/10/25 – 03/11/25
International	184	1. Cricket Bilateral Series – Ireland vs Zimbabwe 2 – 26 February2025
		2. World Relays 11-12 May 2025
		3. FIDE World Schools Team Championships (Chess) 28 July to 07 August 2025
		4. Zimbabwe U21 Ladies Team, participated in the Junior World Cup, Santiago, Chile 1-13/12/25
Total	**553**

ANSA 2024 Update

The 2024 Annual National Sports Awards, (ANSA) were held on the 30th of March 2025 at the Cresta Lodge in Msasa. The theme for the 2023/4 event was, "Setting the Gold Standard. "The Guest of Honor was the Minister of Sport, Recreation, Arts and Culture, Honorable Lieutenant General (Rtd) Ambassador A. N Sanyatwe.
The edition catered for outstanding performances for the years 2023 and 2024.
The 2024 nominees were drawn from Zimbabwe National Boxing and Wrestling Control Board and National Associations registered with the SRC.
Funding to host the event was provided by Treasury (USD$160 000) and sponsorship packages sourced by the Commission (USD$ 33 000).
